Trays

Trays special shapes

Hard shell, soft core.

Overseas or just around the corner? A lot can happen during transportation and storage. We have developed especially sturdy packaging for fruits and vegetables in order to keep everything intact. With our state-of-the-art production process on the corrugated board system

and the die cutters, we can guarantee optimum protection for delicate products – especially when several boxes are stacked or when the stability of the packaging is put to the test by humidity or condensed water.

Harvest-fresh delivery.

There are four secrets as far as good packaging is concerned: a rotary die cutter specially developed for the packing of fruits and vegetables, a flexible production planning module, our experienced sales consultants and extremely short lead times from development to delivery of the boxes.

As a result, we guarantee you to fulfil every wish quickly and perfectly. Just relax and take advantage of the benefits we offer you.

Crispy benefits at a glance.

- Coated crinkles prevent penetration of condensed water in the paper and guarantee great stability
- For protection from humidity, the inside of the packaging is coated
- Use of high-quality papers
- Environmentally friendly and reusable
- Light-weight for optimum logistics
- Supreme print quality

Fresh fruits or vegetables are transported more securely in our packaging. As a longstanding, reliable partner of large fruit businesses, we are aware of our customers' wishes and their special requirements. We develop tailor-made packaging for all products. It does not matter whether you need them for pip fruit and stone fruit, vegetables, herbs or berries.

As rich in variety as a fruit basket.

The wide variety of formats and cuts is unbeatable as far as versatility is concerned. Furthermore we offer you the full range of print options in up to 6 colours: flexo printing, direct offset printing and offset lamination.

In that way, we create new scope for creative, distinct and unmistakable packaging concepts that whet people's appetite.
